

RBK PRE PRIMARY SCHOOL WEEKLY ACTIVITY REPORT

DATE:- 19,10,2016	GRADE:- Junior KG	THEME:- NATURE'S BEAUTY
-------------------	-------------------	-------------------------

This week, children have done seed germination. During planting seeds all the students were fascinated how the seeds were tucked into the soil. After that they took care by watering them daily, and waiting for them to grow. When the first sign of green pops came out through the soil, the smiles erupted on everyone's faces. All the children enjoyed this process with curiosity.
