

### **More and Less concept activity**

How to count objects in number is very challenging for the small kids. To introduce and develop the counting skill of the tiny tots of Nursery class, “more and less concept” activity was conducted on 27<sup>th</sup> August 2018. Teacher arranged the objects like colour boxes, water bottles, pictures of objects, used and conducted activity to explain “More and Less concept activity. It was fun with learning for the students to answer the questions by counting the objects.
