

## REPORT ON SEED GERMINATION

Seed Germination is an important concept in child's education. In Junior Kg class an activity was conducted on 5<sup>th</sup> December 2018 related to seed germination. The students brought a waste box from their home. The teachers took them in garden, they poured soil, spread the seeds in it and again covered with little amount of soil and then watered it. Later, teacher explained the concept in detail with the help of a chart. The tiny –tots enjoyed the activity and played with soil and had a fun.
