

## REPORT ON VEGETABLE ACTIVITY

An activity was conducted in Nursery class on 26/12/18 Wednesday. The teachers brought vegetables and showed to the students with their names. The teachers arranged a flashcard of vegetables and kept the real vegetable in front of them. They had to recognize the real vegetable and find the flashcard. The teacher washed and cut the vegetables like: cabbage, carrot, radish, onion, and tomato, etc... and ask them to taste it raw. The kids enjoyed the activity very much.
