

Report on Field Trip

Plants are one of six big group of living things. Plants includes familiar types such as trees, herbs, bushes, grass, vines, ferns, mosses and green algae.

The plants play an important role in our life. The students of junior kg. went out for Field Trip to Amit Nursery on 23/10/18. In the Nursery teachers showed them different types of plants, flowers like rose, marigold, daisy, different shades of sunflowers. The kids were very excited observing coconut and mango trees. The kids enjoyed the trip very much.
