

## Map Skill Activity Report

Map skill allows the students to understand and analyze facts related to the places and spaces around them. Spatial thinking is one of the most important skills that students can develop as they learn geography and environmental sciences. By keeping this in view Map Skill Activity was organized on 06<sup>th</sup> October 2018 at Hanumant High School for classes III to V. Students were asked to indicate different topics on provided maps. The students enthusiastically participated in the Activity.
