

Report on Tree Plantation

“The creation of a thousand forests is in one acorn.” **Hanumant High School** is committed to inculcate the values in its students with a deep commitment to their responsibilities as citizens of the world. We express our commitment to sustainability by teaching, living, and working in ways that reflect our ideal of a more thoughtful and sustainable world. Our school had taken initiated in an extensive Tree Plantation Programme on the 19th of September 2018 in different parts of our locality. The students and teachers selected the empty places and the roadsides to plant saplings in a well-organised way. Our school supplied the saplings. In order to restore the eco-balance of the afforestation drive was taken with all seriousness. Participants were highly enthusiastic to make it a big success. The students planted saplings, and fenced them and watered the plants. The people in different societies appreciated every step of the programme. The programme created a great stir among the general public too. The students learnt to work in a group and also developed new skills like collaboration and teamwork. The students displayed perseverance and commitment to the activity. The realization in the hearts of our students that they could make a difference fulfilled the objectives of the activity.
