

REPORT ON DIAMOND SHAPE

Diamond shape is known as cut, has a huge impact on the appearance and worth of a diamond. An activity was conducted in junior kg class on 4th January 2019 Friday. An introduction was given to the students with the help of real objects and with some wooden toys. The students also tore paper and pasted it on Diamond shape which was provided by teachers. As we know, the kids like tearing a paper and pasting. Likewise, the students enjoyed the activity and learnt about the diamond shape.
