

REPORT ON LIFE SKILL ACTIVITY

The development of life skills helps students to find new ways of thinking and problem solving in everyday life.

An activity was conducted on LIFE SKILL in Jr.Kg class on January 9, 2019 Wednesday. In this activity the students used water, glasses, bowls, sands and sponge. The student learnt how to pour water from one container to another. After that the teachers took them in garden and gave instruction to fill sand in the bowl. The children played with water and sand. The excitement to do this activity was apparent on their faces.
